

SIRM

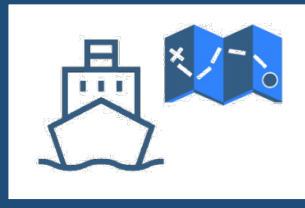

We were born from an idea of the 20th century's greatest innovator, Guglielmo Marconi. SIRM S.p.A. and SIRM UK Marine Ltd., the legacy of Marconi Marine, together honour the spirit of the founder creating innovative solutions for the maritime industry.

Our vision is to offer Navigation, Communication and Information Technology solutions to all sectors of the industry, in both domestic and worldwide markets.

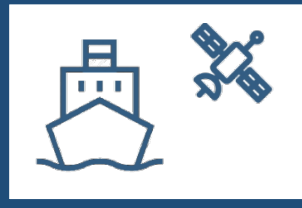

GMDSS & Integrated
Bridge Systems

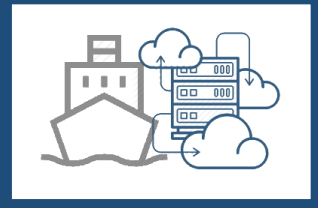

Navigation
Equipments

Broadband Solutions
(FBB & VSAT)

IT Cloud Solutions
(FleetOnCloud)

Our strengths are the ability to offer system integration by pooling knowledge of customer needs and industry regulations, a strong partnership with leading brands in the industry and the expertise of the staff of our competence centers. This allows us to offer innovative solutions based on the latest satellite communication offerings combined with applications based on the latest ICT paradigms of cloud computing. We offer value-added services that support the digital transformation of the business of shipping companies.

Our Main Partners

SIRM is able to provide a complete range of products, high quality installation and an excellent customer through the partnership with the main international brands.

Shorebased Maintenance and complete customer support for all bridge equipments. Our partner network ensures coverage on all major shipping routes.

Airtime Network Operation Center A team of professionals to ensure the best support for VSAT & MSS satellite broadband telecommunications. SIRM is a partner of Inmarsat, Iridium and main VSAT providers.

SIRM S.p.A. is present in the main Italian ports with its own commercial and technical offices and with technical partners to ensure support to national and international customers. The **Service Coordination Centre** and R&D Competence Centre, for the development of Cloud and IT solutions, are located in Torre Annunziata.

SIRM UK Marine Ltd. has more UK based marine electronics engineers than any other company and a network of regional offices across the country. The regional offices act as a first line of contact for customers, offer local expert knowledge – as well as engineering support around the clock – and are strategically based in, or near to, local ports and harbours.
